

LPS DIRECT

ONE VISION, ONE VENDOR,
ONE EXTRAORDINARY SPACE

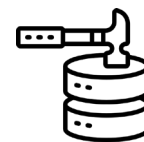

COLLABORATION ROOM SETUP FOR LPS DIRECT

DESIGN

PROJECT OVERVIEW: LPS Direct was tasked with designing, building, and furnishing a collaboration room for a corporate client. The objective was to create a versatile, technology-integrated space that promotes teamwork and enhances collaborative process.

DESIGN CONCEPT: The design focused on fostering interaction and collaboration with a well-designed layout. The room was equipped with essential technology for seamless collaboration, including video conferencing systems and interactive displays. Furniture selection was crucial, with versatile pieces chosen for flexibility and comfort. Whiteboard walls were incorporated to provide writable surfaces for brainstorming and idea sharing. Comfortable, ergonomic seating was prioritized for prolonged sessions. Movable partitions were included to offer flexible privacy options. Accessibility was ensured to accommodate all team members, and

thoughtful decor was selected to create an inspiring environment. Storage solutions were integrated for organized tool storage, and acoustic treatment was applied to minimize noise.

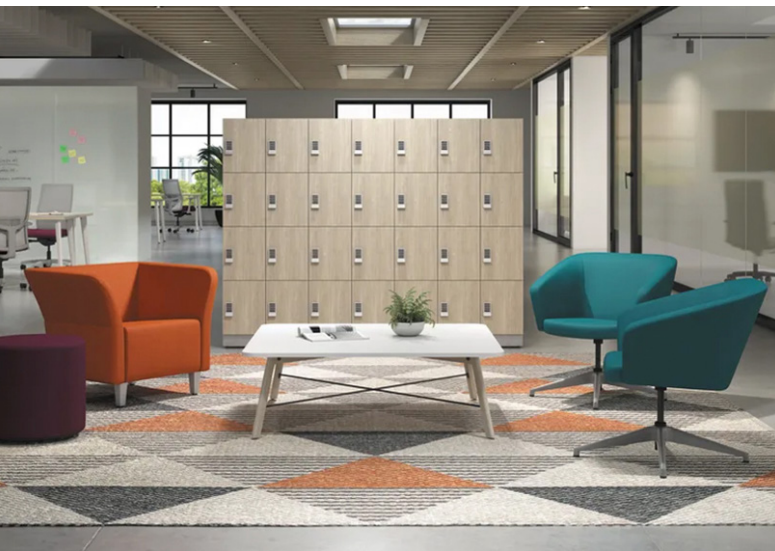

INSTALLATION CHALLENGES: The collaboration room was strategically located in a central and accessible spot to encourage frequent use and teamwork. The room size and layout were determined based on the number of users and the types of collaborative activities expected. Essential technology was integrated to support seamless communication and collaboration. Flexible, ergonomic furniture was

chosen to meet varied needs and ensure comfort during extended sessions. Whiteboard walls were installed to facilitate brainstorming and visual collaboration. Movable partitions were included to provide privacy for confidential discussions. Acoustic treatment materials were used to minimize noise and enhance the collaborative environment. Accessibility was ensured for all team members, and safety and compliance with building codes and regulations were maintained.

FURNISH

DESIGN SELECTIONS: The collaboration room was furnished with flexible furniture to adapt to varied collaboration needs and group sizes. Ergonomic chairs were provided to ensure comfort during extended sessions. Collaborative surfaces, including ample workspaces for laptops and collaborative tools, were included. Whiteboard walls were installed to support brainstorming and visual collaboration. The room was equipped with video conferencing systems

and interactive displays to facilitate seamless communication. Storage solutions, such as cabinets and shelves, were incorporated for organized tool storage. Movable partitions were provided to allow for confidential discussions when needed. The design featured inspiring aesthetics to encourage creativity, appropriate lighting fixtures for comfortable illumination, and ensured accessibility for all team members.

LPS Direct effectively designed, built, and furnished a collaboration room tailored to the client's specific needs. The project showcased the company's ability to create flexible, high-quality collaborative spaces within budget while ensuring minimal disruption to the client's operations. The end result was a functional, stylish, and efficient environment that enhanced teamwork, communication, and creativity among employees. This setup not only boosted individual performance but also facilitated better collaboration and support, contributing to the overall success of the client's projects.
