ONE VISION, ONE VENDOR,
ONE EXTRAORDINARY SPACE

COMMUNITY/WELLNESS ROOM FOR LPS DIRECT

DESIGN

PROJECT OVERVIEW: LPS Direct was tasked with designing, building, and furnishing a community/wellness room for a corporate client. The goal was to create a versatile, comfortable, and inviting space that promotes wellness and community engagement, accommodating a variety of activities and events.

DESIGN CONCEPT: The design focused on creating a versatile space that could accommodate various activities and events. Comfortable seating was provided, including ergonomic chairs and cozy seating areas for relaxation. The room was equipped with multi-purpose equipment such as exercise machines, yoga mats, and meditation cushions to support fitness and wellness activities. Natural elements were incorporated to promote relaxation and well-being, including plants, natural light, and calming colors. Privacy features, such as curtains or partitions, were considered for private consultations

or meditation sessions. Technology integration included sound systems and screens for guided meditation sessions or fitness classes. Accessibility was ensured, making the room accessible to all individuals, including those with disabilities. Safety measures, including safety protocols and first aid supplies, were implemented to address emergencies. Community engagement was encouraged through the design, fostering community involvement via workshops, support groups, or wellness events hosted in the room.

ONE EXTRAORDINARY SPACE

BUILD

INSTALLATION CHALLENGES: The installation of the community/wellness room began with space allocation, determining the appropriate size and location within the building. Functionality was a key consideration, planning for versatile use to accommodate various wellness activities and programs. Necessary amenities and equipment, such as exercise machines, yoga mats, and meditation cushions, were installed. Natural elements were maximized, with an emphasis on natural light and the incorporation of plants to create a calming and rejuvenating atmosphere. Privacy features, such as curtains and partitions, were added to facilitate private consultations and meditation sessions. Technology was integrated, equipping the room with sound systems and screens for guided meditation and fitness classes. Accessibility was ensured for all individuals, including those with disabilities. Safety measures, including safety protocols and first aid supplies, were implemented to handle emergencies. Community engagement was fostered through the design, encouraging participation in workshops, support groups, and wellness events.

FURNISH

DESIGN SELECTIONS: The community/wellness room was furnished with comfortable seating, including ergonomic chairs and cozy seating areas for relaxation and discussion. Versatile furniture was provided, allowing flexible seating options that could be easily rearranged to accommodate

different activities. A variety of fitness equipment, such as treadmills, stationary bikes, and free weights, was included to cater to different fitness levels and preferences. Mindfulness tools, including yoga mats, meditation cushions, and bolsters, were offered to support mindfulness and relaxation practices. Storage solutions, such as shelving units and cabinets, were installed to keep equipment and supplies neatly organized and the room clutter-free. The aesthetic appeal was enhanced with soothing colors, artwork, and greenery to create a tranquil and inviting atmosphere. Furniture and equipment were selected to ensure accessibility for all individuals, including those with mobility limitations or disabilities. Safety considerations were prioritized, choosing furniture and equipment with safety features such as rounded edges and non-slip surfaces. Community engagement was encouraged by providing space for group activities, workshops, and events that promote health and wellness.

CONCLUSION: LPS Direct effectively designed, built, and furnished a community/wellness room tailored to the client's specific needs. The project showcased the company's ability to create versatile, high-quality spaces that promote wellness and community engagement within budget while ensuring minimal disruption to the client's operations. The end result was a functional, stylish, and efficient space that enhanced well-being, comfort, and community interaction. This setup not only improved the client's wellness offerings but also facilitated better community involvement and support, contributing to the overall success of the client's wellness initiatives.
